

Collaboration: Finshots by Finception

SIES Skyline has collaborated with Finception for their weekly newsletter Finshots. The subscriber gets a concise wrap up of the most important Business and Financial news of the week. About Finception: It is a Fintech start up that envisions to make financial news more accessible to the masses and is backed by Zerodha's Fintech fund – Rainmatter. An initiative by the students of IIM Ahmedabad, the e-newsletter aims to provide their readers with precise and concise information that will not only keep them updated with the current financial affairs but also helps them prepare for placement interviews, group discussions, and also entrance exam preparation (like CAT) by helping them polish their current affairs.
