Report

Title: Workshop on Research Methodology in Material Science 2022-23

Objectives: Students should develop the zest of research aptitude. They should get the experience of research laboratory work. They should develop the skills of various characterization and analysis techniques, utilization of software required for materials analysis. They should get the knowledge of reading and writing research paper.

Duration: 29/09/2022 to 31/01/2023 (45 hours)

Targeted students: TYBSc, MSc (Physics)

Number of Beneficiaries: 07

Location: Physics Research Laboratory

Details: Various inorganic and organic materials were prepared using different synthesis techniques such as wet chemical method, controlled precipitation method and combustion synthesis. The measurements of optical properties of the material i.e. excitation and emission spectra were taken from Department of Physics, RTM Nagpur University, Nagpur. X-ray diffraction measurements were carried out from Institute Science Mumbai. The open database software Crystal Match and Vesta were utilized to determine the crystal structure. Students learnt how to analyse the materials using these techniques. Also, they learnt to read and write research paper.

A. Title of the Workshop/Activity: International Webinar in Celebration of World Fungus Day

B. Background: The Department of Botany, in collaboration with the Association of Fungal Biologists, proudly organized an international webinar on World Fungus Day. This highly anticipated event marked the inaugural activity of the Association of Fungal Biologists, bringing together experts and enthusiasts from around the world to delve into the fascinating world of fungal biotechnology and explore the potential of mushroom-derived products in the field of cosmeceuticals.

The webinar featured two distinguished speakers who shared their invaluable insights and expertise. Dr. Seshagiri Raghukumar, the Chief Scientific Officer at Avisa Myko, Inc. in Goa, India, delivered an enlightening talk on "Industry Academia Connect in Fungal Biotechnology." Dr. Raghukumar's extensive experience and profound knowledge shed light on the fruitful collaboration between industry and academia, highlighting the remarkable advancements in fungal biotechnology and its applications across various sectors.

The second speaker, Dr. Susanna M. Badalyan, a renowned professor at the Laboratory of Fungal Biology and Biotechnology in the Institute of Pharmacy, Department of Biomedicine at Yerevan State University, Armenia, shared her expertise on "Mushroom-derived biotech products and cosmeceuticals." Dr. Badalyan's presentation delved into the exciting realm of mushroom-based biotechnology, discussing the potential of mushrooms in the development of innovative and sustainable cosmeceutical products.

C. Aims/Objectives: The objective of the international webinar conducted on World Fungus Day, organized by the Department of Botany in collaboration with the Association of Fungal Biologists, was to provide a platform for knowledge sharing, networking, and collaboration in the field of fungal biotechnology. The webinar aimed to highlight the importance of industry-academia connection in advancing fungal biotechnology, exploring the potential applications of mushroom-derived products in the field of cosmeceuticals. By bringing together renowned experts, the webinar aimed to foster

discussions, exchange insights, and inspire researchers, students, and professionals to leverage the vast potential of fungi for innovative biotechnological solutions. It provided a valuable opportunity to learn about the latest breakthroughs, share research findings, and discuss future directions in the field of fungal biotechnology and its applications in cosmeceuticals. The webinar also sought to establish the Association of Fungal Biologists as a prominent platform for future research collaborations and advancements in the field of fungal biology and biotechnology.

D. Location: MS Teams Platform

E. Target audience/participants with expected number: Students (UG and PG), Research Scholars, Faculty and Scientists; Expected number: 294

F. Date of the activity: 02/10/2022

G. Name of Resource Persons:

- Dr. Seshagiri Raghukumar, the Chief Scientific Officer at Avisia Myko, Inc. in Goa, India, delivered an enlightening talk on "Industry Academia Connect in Fungal Biotechnology."
- Dr. Susanna M. Badalyan, a renowned professor at the Laboratory of Fungal Biology and Biotechnology in the Institute of Pharmacy, Department of Biomedicine at Yerevan State University, Armenia, shared her expertise on "Mushroom-derived biotech products and cosmeceuticals."

H. Outcome/Feedback: This international webinar served as a platform for knowledge exchange, networking, and fostering collaborations in the field of fungal biotechnology. Participants had the opportunity to engage in thought-provoking discussions, gain insights from esteemed experts, and explore the emerging trends and advancements in fungal research. The successful completion of this international webinar marked a significant milestone for the Association of Fungal Biologists, laying the foundation for future endeavors and collaborations in advancing fungal research and its applications.

A Brief Report on Visit to BSE

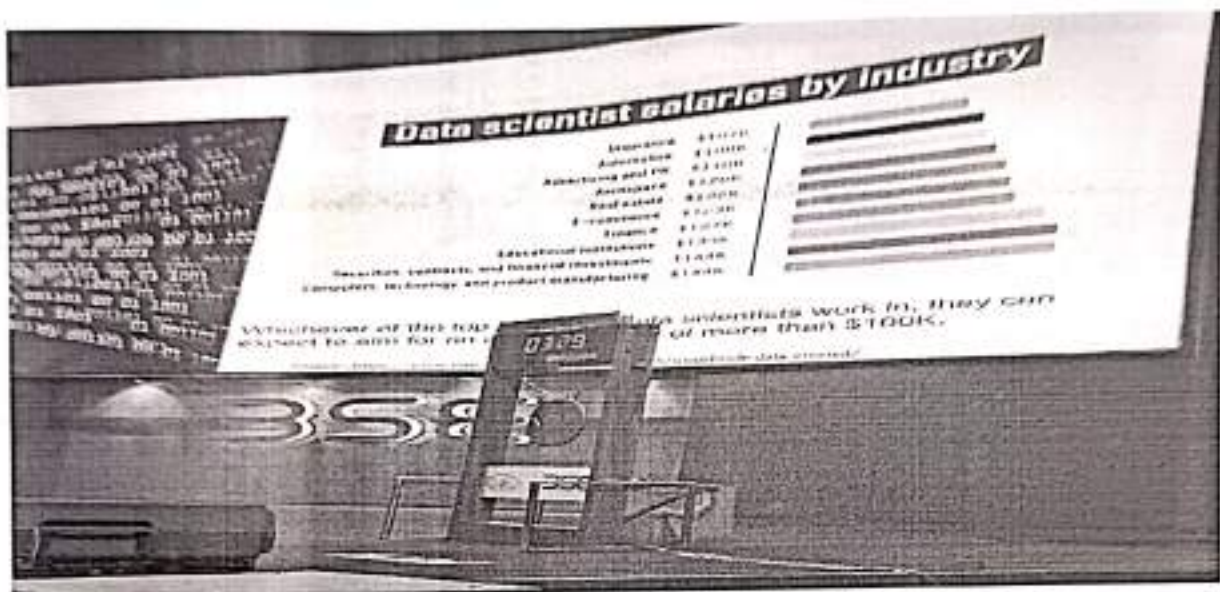

Date of Visit: 18th October 2022

Time: 02:00 PM

Company: BSE Limited (Bombay Stock Exchange)

CLASS: FYBSC COMPUTER SCIENCE 2022-2023

An Industrial visit to “**Bombay Stock Exchange**”, Phiroze Jeejeebhoy Towers, Dalal St, Kala Ghoda, Fort, Mumbai, Maharashtra, was successfully organized by The Department of Data Science and The Department of Computer Science of SIES College of Arts, Commerce and Science, Sion (West), Mumbai.

Total 72 students from both the department, along with 1 Faculty (Asst. Prof. Tarannum Shaikh) visited the institution to understand the scope and importance of Computer Science in Stock markets, future scopes and career options along with the significance of Artificial Intelligence.

All students reached CSMT Local Station, then further reached BSE building by 2:00 PM.

After checking in, the students were taken to the Auditorium, where Mrs. Meenakshi gave an introductory speech along with the specification of the required details about the program organized by the institution for the students.

Following the course of events Mr. Chirag Jhumkhawala, provided the students with the necessary information about the significance of Artificial Intelligence, also referring to his own experience.

Overall, the experience was distinctive, providing everyone with new knowledge and opportunities based on the field of expertise in the field of Computer Science.

WORKSHOP

Understanding Urban Governance

Aims/ Objectives:

- To acquaint students about the structure and working of urban government
- To understand the importance of interventions with respect to civic issues

Location: SIES College, Sion West, Mumbai

Target audience/participants with expected number: Students (150)

Date: 22nd November 2022

Resource persons/ Speakers: Mr. Eknath Pawar, Data Manager, Praja Foundation.

Short Description

Mr. Eknath Pawar discussed the salient features of 74th Constitutional Amendment and critical structures and processes of urban government. The workshop focused on creating awareness and encouraging students about the public and individual interventions into civic issues. The workshop primarily focused on urban sanitation, transport, water supply etc. and civic authority structures handling the issues. He introduced students to the MCGM's 1916 Project (Complaint Redressal System).

The seminar ended with a Q&A session.

Outcomes:

- The students understood the importance of civic issues and public interventions.
- The students were aware of means, structures and methods of resolving or addressing civic issues and concerns.

Bioanalytical Sciences

- A. Title of the Workshop/Activity:** *'Concept Based Learning'* – A Research-Based Pedagogy Tool to impart training and develop skills in Instrumentation and Bioanalytical Techniques
- B. Background:** Conventional teaching-learning pedagogy, especially in science class activities, involves routine following of instructions by students given to them by teachers, leading to a lack of learning, development, and training of laboratory skills. A student's approach is mechanical without making use of creative thought in why and how a scientific experiment is performed. Therefore, instead of having a conventional and pedagogic approach, this workshop attempts to have a creative and innovative concept-based learning approach with an inquiry-based interdisciplinary curriculum centering on the principle that students should actually do science themselves. 'Winter School: A School of Unlearning' conducted the workshop on "Concept Based Learning" to impart training of laboratory instruments/ equipment to students and to impart fresh skills for the application of instruments.
- C. Aims/Objectives:** To create awareness amongst students regarding the relevance of unlearning with a spirit of inquiry, for learning and relearning the concepts in sciences. The workshop aims to inculcate concept-based learning with research aptitude, in order to understand and consolidate fundamental concepts, develop critical thinking and problem-solving ability, encourage interdisciplinary approach, and enhance analytical reasoning in students.
- D. Location:** Department of Bioanalytical Sciences, 3rd floor, SIES College, Sion (West), Mumbai
- E. Target audience/participants with expected number:** Students currently pursuing M.Sc in subjects such as Bioanalytical Sciences, Biochemistry, Biotechnology, Botany, Chemistry, Environmental Science, Life Sciences, Microbiology, Nutraceuticals and Zoology. Expected Number: 50 participants
- F. Date of the activity:** From Monday 26th December 2022 to Saturday 31st December 2022
- G. Name of Resource Persons:** Dr. Satish Sarfare, Ms. Pracheta Salunkhe, Mr. Tejas Karandikar
- H. Outcome/Feedback:** The workshop helped impart training on the laboratory instruments/equipment to students, it also equipped them with fresh skills/techniques for

the application of instruments. Moreover, it created awareness amongst students regarding the relevance of unlearning with a spirit of inquiry, for learning and relearning the concepts in the sciences

Designation: Assistant Professor

Name of the Department: Botany

- A. Title of the Workshop/Activity:** National webinar on Myco-Drug Development and Future Prospects of Fungal Systematics
- B. Background:** The Department of Botany, in collaboration with the Association of Fungal Biologists, organized a national webinar on Myco-Drug Development and Future Prospects of Fungal Systematics. Held on 18th February 2023, this webinar brought together leading experts in the field to delve into the fascinating realm of fungal metabolites in drug development and explore the future of fungal systematics.
- Dr. Sanjai Saxena, a distinguished professor in the Department of Biotechnology at Thapar Institute of Engineering & Technology and the Founder & CSO of AGPHARM BIOINNOVATIONS LLP in Patiala, Punjab, was the first invited speaker. Dr. Saxena shared his expertise on "Fungal Metabolites in Drug Development," shedding light on the significant contributions of fungal metabolites in the discovery and development of novel therapeutics. His talk showcased the immense potential of fungi in producing bioactive compounds with diverse applications in medicine and healthcare.
- The second speaker, Dr. Belle Damodara Shenoy, Principal Scientist at CSIR-National Institute of Oceanography Regional Centre in Visakhapatnam, Andhra Pradesh, India, presented on the "Future of Fungal Systematics." Dr. Shenoy's presentation explored the evolving field of fungal systematics, discussing emerging techniques, technologies, and approaches in fungal taxonomy, classification, and identification. The talk provided insights into the importance of accurate fungal systematics for various applications, including drug discovery, agriculture, and conservation.
- C. Aims/Objectives:** The national webinar aimed to bridge the gap between academia, industry, and researchers in the field of mycology. It provided a platform for knowledge dissemination, encouraging discussions on the latest research trends, challenges, and prospects in myco-drug development and fungal systematics. Participants, including scientists, academicians, students, and industry professionals, had the opportunity to gain valuable insights, exchange ideas, and explore collaborative avenues in this rapidly advancing field.

The webinar aimed to inspire and empower the scientific community to harness the immense potential of fungi for drug discovery, emphasizing the need for interdisciplinary collaborations, innovative approaches, and advancements in fungal systematics. By showcasing groundbreaking research and future directions, the event aimed to contribute to the overall understanding and application of fungi in various sectors, including healthcare, biotechnology, and environmental sustainability.

D. Location: MS Teams Platform

E. Target audience/participants with expected number: Students (UG and PG), Research Scholars, Faculty and Scientists; Expected number: 252

F. Date of the activity: 18/02/2022

G. Name of Resource Persons:

- Dr. Sanjai Saxena, a distinguished professor in the Department of Biotechnology at Thapar Institute of Engineering & Technology and the Founder & CSO of AGPHARM BIOINNOVATIONS LLP in Patiala, Punjab, was the first invited speaker. Dr. Saxena shared his expertise on 'Fungal Metabolites in Drug Development'.
- Dr. Belle Damodara Shenoy, Principal Scientist at CSIR-National Institute of Oceanography Regional Centre in Visakhapatnam, Andhra Pradesh, India, presented on the 'Future of Fungal Systematics'.

Outcome/Feedback: The successful organization of this national webinar demonstrated the commitment of the Department of Botany and the Association of Fungal Biologists to promote knowledge sharing, collaboration, and advancements in the field of mycology. It laid the foundation for future initiatives, research collaborations, and interdisciplinary partnerships to explore the untapped potential of fungi in drug development and fungal systematics.

- A. Title of the Workshop/Activity:** "Seminar on Awareness about Intellectual Property Rights"
- B. Background:** A National Intellectual Property Awareness Mission (NIPAM) under the initiative of the Government's "Azadi ka Amrit Mahotsav", was launched by Shri Anurag Jain, Secretary, DPIIT on 8/12/2021. The pan-India ambitious mission aims to provide awareness on intellectual property and its rights to 1 million students. It aims to inculcate the spirit of creativity and innovation to students of higher education (classes 8 to 12) and ignite and inspire the students of college/Universities to innovate and protect their creations. During the launch, Shri. Anurag Jain emphasized the importance of the role of a strong IPR ecosystem in the advancement of a country and how IPR is an important tool for the IP holder to become a "Job giver rather than job seeker". Shri. Rajendra Ratnoo, Joint Secretary, DPIIT and CGPDTM motivated the officers of CGPDTM to spread awareness on intellectual property so that a more conducive environment of innovation and creativity is established in the country. SIES College of Arts, Science and Commerce (Autonomous), Mumbai collaborated with NIPAM to create awareness on Intellectual Property Rights (IPR) for its students which was open to students of other Colleges too.
- C. Aims/Objectives:** To create awareness on Intellectual Property Rights. To give students an idea about career opportunities as a patent officer
- D. Location:** P S Ramaswamy Mini Auditorium
- E. Target audience/participants with expected number:** Under Graduate and Post Graduate students. Expected number: 58
- F. Date of the activity:** 25th March 2023
- G. Name of Resource Persons:** K. Narayanmurthy (Examiner of Patents & Designs, Group 'A' Gazetted NIPAM Officer, Patent Office Mumbai DPIIT, Ministry of Commerce & Industry, Government of India.
- H. Outcome/Feedback:** The seminar talk given by K. Narayanmurthy helped participants understand the concept as well as various types of Intellectual Property Rights. After learning the career opportunity as patent officer, students were interested in learning

about the qualifying examination for the same. 8 students from Ramniranjan Jhunjunwala College of Arts, Science and Commerce (Autonomous), Mumbai making it an Inter-Collegiate event.

Title: 5 days workshop on “ Nuclear Laboratory course “.

Aims/Objectives : This course covered the following topics: Basic ideas of different kinds of radiation detectors. Physics of Ionization detectors, and types of ionization detectors. Scintillation detector..Detector electronics, Signal processing. Detection process. Lab course, Biasing of detectors, biasing requirements, calibration Collection of spectrum, background spectrum and Analysis of spectrum, calibration and resolution determination.

Target audience /participants with expected number: SYBSc Physics

Duration: 8-04-2023 to 12-04-2023

Number of Beneficiaries: 08

Location: HBCSE-TIFR Mumbai

Name of Resource Persons: Dr. P. K. Joshi

Outcome/Feedback: Students received the participation certificate on successful completion.
