

**SIES COLLEGE OF ARTS, SCIENCE AND COMMERCE, (AUTONOMOUS),
SION (W), MUMBAI -400 022
NAAC SSR – CYCLE 4 : 2018-2023**

Metric No. 5: 5.1.3:

Following capacity development and skills enhancement activities are organised for improving students' capability (1. Soft Skills, 2. Language and Communication Skills, 3. Life Skills, 4. Awareness of trends in technology)

Sr. No.	Activities on Awareness of trends in technology	Page numbers
1.	Documentary and Ad Film Making	01
2.	Stickman drawing	30
3.	RUSA sponsored workshop on Training and skill development in instrumentation and bioanalytical techniques	53
4.	HACCP and FoSTaC Skill development Workshop	63
5.	Short Term Training on Plant Tissue Culturing & Hardening	64
6.	E News-letter- "Gulmohar"	65
7.	Tree Appreciation extra credit course	74
8.	Global profiling using microarray	77
9.	Online Workshop for Developing & Refining Skills in Bioinformatics (RUSA sponsored)	83
10.	BARC technologies for solid waste management through biological route	91
11.	Enhancing the Skill of Research: Use of R tools software for Data Analysis	99
12.	Cultural Trauma, Biopolitics and Precarious Lives in the 21st Century	101
13.	The Protection of Women from Domestic Violence Act, 2005	104
14.	IPR awareness webinar	105
15.	Pathways to develop Research Skills in Mathematics	109

16.	RUSA sponsored Workshop on Development of Skills in Biostatistics analysed biological dataset	115
17.	Inicio - Find Your Path	122
18.	Pitch to be Rich	128
19.	Establishing a Start-Up 101	130
20.	Power Supplies and Fun with Logic Gates	137
21.	Demonstration of MSc projects and Physics research lab visit	142
22.	Frontiers of Physics	145
23.	Certificate course on Programming and interfacing using Raspberry pi (RUSA sponsored)	152
24.	Insights into Field Biology Extra Credit Course	156
25.	E News letter- "Life"	170

This is to certify that the attached documents have been verified and found to be true.

Training programme cum Lecture series on Documentary and Ad Film Making Report [Part - 1]

Subtitle of the Training programme: Introduction to Audiovisual Communication

Day & Date and Time: 30th July 2021, Friday;10 am to 1pm

Background:

The Department of Mass Media of SIES College of Arts, Science, and Commerce, Sion (W),(Autonomous) conducted the first part of the Documentary and Ad Film Making Training Programme Lecture Series on 30th July, 2021 for the students of SYBAMMC and TYBAMMC.

The workshop was headed by Mr. Akash Purswani. The purpose of this series is to educate students about documentaries and ad films, their types and how to go about the process, from ideation to creation.

Objectives of the Training programme:

- To learn various mediums of AV communication
- To understand the significance of various mediums of AV Communication
- To explore the options of AV Communication in the digital age.

Location: Microsoft Teams Learning Management System

Participants in the workshop with attendance: 125 TYBAMMC and SYBAMMC students

Session and name of Resource Persons: Online by Mr. Akash Purswani

Outcome:

Mr. Purswani began the series by clearly defining what are the different types of documentaries and ad films. Students were very interactive with respect to their favorite documentaries and sharing their opinions on the same. The discussion also delved into how popular documentaries influence public opinions and vice versa.

The students were able to learn the following points satisfactorily on:

- the various mediums of AV communication and their significance.
- the prominence of AV Communication in the digital age.

Funding if any: NA**Annexures:****List of Participants**

Report Prepared by: Dr. Vaneeta Raney
Course Coordinator,
Department of Mass Media

Training Programme cum Lecture series on Documentary and Ad Film Making Report [Part - 2]

Subtitle of the Training Programme :Documentary and Non-Fictional Filmmaking

Day & Date and Time: 25th August 2021, Wednesday ; 4pm to 6pm

Background:

The Department of Mass Media of SIES College of Arts, Science, and Commerce, Sion (W),(Autonomous) conducted the part 2 of the Documentary and Ad Film Making Training Programme Lecture Series on 25th August, 2021 for the students of SYBAMMC and TYBAMMC.

The workshop was headed by Mr. Akash Purswani. The purpose of this series is to educate students about documentaries and ad films, their types and how to go about the process, from ideation to creation.

Objectives of the Training programme:

- To learn the types of Documentary and Ad Films
- To understand the Non-Fictional Filmmaking and Grammar of Ad Filmmaking.

Location: Microsoft Teams learning management system

Participants in the workshop with attendance: 104 TYBAMMC and SYBAMMC students

Session and name of Resource Persons: Online by Mr. Akash Purswani

Outcome:

Mr. Purswani began the series by clearly defining what are the different types of documentaries and ad films. Students were very interactive with respect to their favorite documentaries and sharing their opinions on the same. The discussion also delved into how popular documentaries influence public opinions and vice versa.

The students were able to learn the following points satisfactorily on:

- the concept of Documentary and its types
- how to explore Non-Fictional Filmmaking and Grammar of Ad Film making

Funding if any: NIL**Annexures:****1.List of Participants**

Training programme cum Lecture series on Documentary and Ad Film Making Report [Part - 3]

Subtitle of the Training programme: Production stages and MME trends

Day & Date and Time: 22nd October 2021, Friday;3pm to 5pm

Background:

The Department of Mass Media of SIES College of Arts, Science, and Commerce, Sion (W),(Autonomous) conducted the part 3 of the Documentary and Ad Film Making Training Programme Lecture Series on 22nd October 2021 for the students of SYBAMMC and TYBAMMC.

The workshop was headed by Mr. Akash Purswani. The purpose of this series is to educate students about documentaries and ad films, their types and how to go about the process, from ideation to creation.

Objectives of the Training programme:

- To learn the Art of Scripting and storyboarding
- To understand the importance of Pre-Production, Production, and Post-Production
- To explore the future trends in Multimedia and Entertainment

Location: Microsoft Teams learning management system

Participants in the workshop with attendance: 104 TYBAMMC and SYBAMMC students

Session and name of Resource Persons: Online by Mr. Akash Purswani

Outcome:

The feedback of participants reflects the following points satisfactorily:

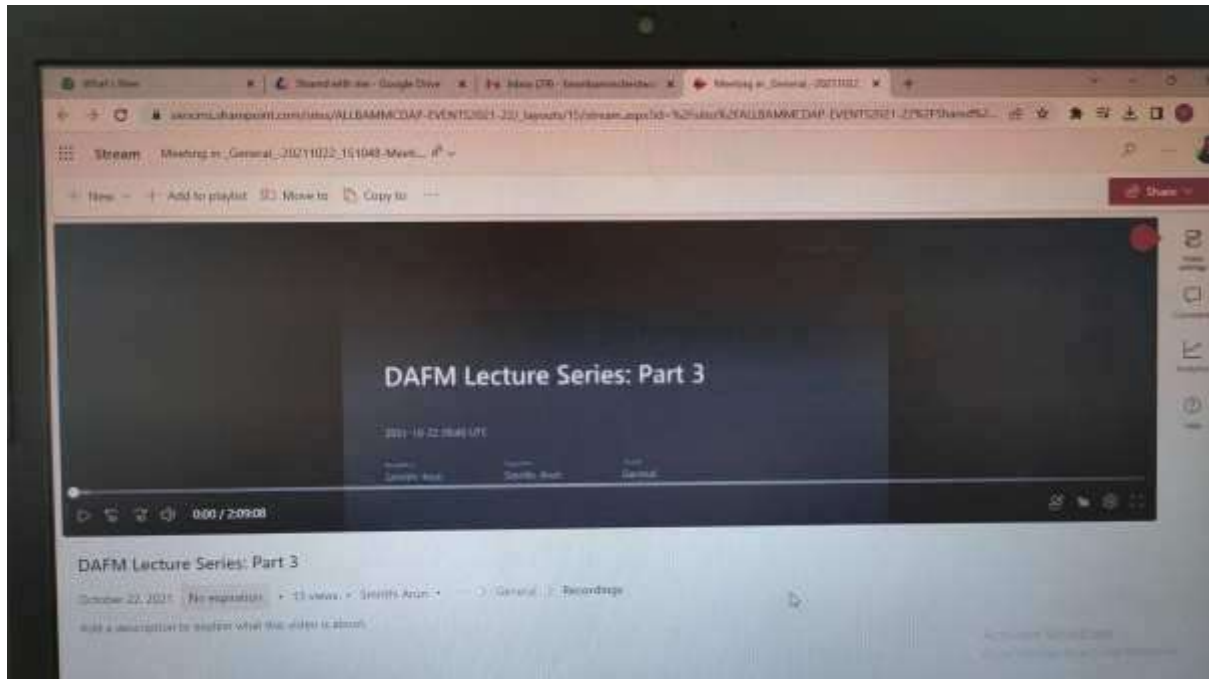

This Documentary and Ad Film making to gain the following are:

- to learn the new trends in Multimedia and entertainment
- the importance of research and scripting and storyboarding.

Funding if any: NIL

Annexures:

**The Department of Mass Media Workshop Report on
STICKMAN DRAWING**

Title of the Workshop: Creative Learning Through Sketching

Day & Date and Time: 13th July 2021, Tuesday; 4pm to 5.30pm

Background:

The Department of Mass Media of SIES College of Arts, Science, and Commerce, Sion (W), (Autonomous) conducted a workshop on “Creative Learning Through Sketching” for the students of SYBAMMC and TYBAMMC.

Workshop Objective:

The main purpose was to guide students through basic drawing methods using stick figures, which will be useful to them in courses like Electronic Media, Film Communication, Ad Design, and Newspaper and Magazine Making.

Location: Microsoft Teams learning management system

Registration and Participation: 85 TYBAMMC and SYBAMMC Students

Details of the Session:

- Ms. Karmokar began the session by introducing examples of various stick figure drawings and explained where and how they can be used.
- She also spoke about their scope to storyboarding for different types of media. Further, she showed certain variations in stick figures and some basic methods to distinguish between the genders of the characters.

- To make the session interactive, Ms. Karmokar assigned two simple tasks to the class of 85 students. The first task included simple actions like thinking, swimming, falling, and so on.
- For the second task, the students had an option between making a storyboard of six frames for any scene from their favorite movie and making a storyboard for any advertisement of their choice.
- She motivated them to show their respective storyboards on camera so that she could guess the film or advertisement.

Session and name of Resource Persons: Online by Ms. Ruchita Karmokar

Outcome:

- Students were able to use the artistic tricks under mass communication courses
- The students learned the art of expressing themselves through this stick figures workshop

Funding if any: NIL

Report Prepared by: Dr. Vaneeta Raney
Course Coordinator,
Department of Mass Media

REPORT FORMAT

A. Title of the Seminar/Workshop/Conferences: Training and Skill Development in Instrumentation and Bioanalytical Techniques”

B. Background: Conventional teaching learning pedagogy especially in science class activities involves routine following of instructions by students given to them by teachers which leads to lack of learning, developing and training of laboratory skills. A student’s approach is mechanical without making use of creative thought in why and how a scientific experiment is performed. Therefore, instead of having a conventional and pedagogic approach, this workshop attempts to have a creative and innovative concept-based learning approach with an inquiry based interdisciplinary curriculum centering on the principle that students should actually do science themselves.

C. Aims/Objectives: The workshop aims to inculcate critical thinking, interdisciplinary approach and analytical reasoning in students. It will also impart skill training/fresh skilling of laboratory instruments, equipment and bioanalytical techniques

D. Location: Department of Bioanalytical Sciences, 3rd floor, SIES College, Sion (West), Mumbai

E. Target audience/participants with expected number: Students currently pursuing M.Sc in subjects such as Bioanalytical Sciences, Biochemistry, Biotechnology, Botany, Life Sciences, Microbiology, and Zoology. Expected number: 72 participants

F. Details of Sessions:

Schedule for the workshop 'Training and Skill Development in Instrumentation and Bioanalytical Techniques' From Monday 14th March 2022 to 19th March 2022	
Day, Date, Time, Venue/Place	Activity (Conceptual Understanding and Experiential Learning)
Monday, 14/03/2022 8.15 am – 8.55 am 3 rd Floor, Bioanalytical Sciences Lab	Registration Distribution of workshop kit, identity card/badge to participants
Monday, 14/03/2022 9.00 am – 9.30 am Ground floor, Auditorium	Welcome and Introduction Theme and relevance of the workshop
Monday, 14/03/2022 9.40 am – 11.30 am 3 rd Floor, Biology Lab (Tea – 11.30 pm to 11.45 am)	Conceptual Understanding Overview of GLP, GHS, Laboratory safety signs/symbols, pictograms pH meter – concept of ionization of water, principle, standard operating procedure, calibration, care and maintenance of pH meter, concept of ionization of water, acids/bases (strong/weak)
Monday, 14/03/2022 11.45 am – 5.00 pm 3 rd Floor, Biology Lab and Bioanalytical Sciences Lab (Lunch – 1.00 pm to 1.30 pm)	Experiential Learning Analysis and application – preparation of standard buffers, standard operating procedure, calibration of pH meter, preparing stock/serial dilutions of samples, acids/bases, measuring pH
Tuesday, 15/03/2022 9.00 am – 11.30 am 3 rd Floor, Biology Lab (Tea – 11.30 pm to 11.45 am)	Conceptual Understanding Colorimeter /Spectrophotometer – concept of colour and visible spectrum, principle, standard operating procedure, calibration, care and maintenance of colorimeter/spectrophotometer
Tuesday, 15/03/2022 11.45 am – 5.00 pm 3 rd Floor, Biology Lab and Bioanalytical Sciences Lab (Lunch – 1.00 pm to 1.30 pm)	Experiential Learning Analysis and application - participants executing standard operating procedure, calibration of colorimeter/spectrophotometer, selection of best filter, calibration graph, calculation of unknown concentration of sample
Wednesday, 16/03/2022 9.00 am – 11.30 am 3 rd Floor, Biology Lab (Tea – 11.30 pm to 11.45 am)	Conceptual Understanding Chromatography – principle, concept of partition and adsorption, polarity, method development
Wednesday, 16/03/2022 11.45 am – 5.00 pm 3 rd Floor, Biology Lab and Bioanalytical Sciences Lab (Lunch – 1.00 pm to 1.30 pm)	Experiential Learning Analysis and application - participants executing separation of mixture of samples by suitable chromatographic technique/type (partition and adsorption)
Thursday, 17/03/2022 9.00 am – 11.30 am 3 rd Floor, Biology Lab (Tea – 11.30 pm to 11.45 am)	Conceptual Understanding Electrophoresis – principle, concept of matrix, standard operating procedure, care and maintenance of electrophoretic unit Micropipette – working principle, operating mechanism, components, types of micropipettes, care, maintenance and storage of micropipette
Thursday, 17/03/2022 11.45 am – 5.00 pm 3 rd Floor, Biology Lab and Bioanalytical Sciences Lab (Lunch – 1.00 pm to 1.30 pm)	Experiential Learning Analysis and application - participants executing assembly of electrophoretic unit, casting of gel, separation of samples by suitable electrophoretic technique/type (horizontal and vertical) Pipetting techniques – selection, handling, application and calibration
Schedule continued on next page	

G. Session and names of Resource Persons:

Day and Date	Session Title	Resource Person
Monday 14 th March 2022	Conceptual understanding of pH meter	Dr Satish S Sarfare
Tuesday 15 th March 2022	Conceptual understanding of Colorimeter	Dr Satish S Sarfare
Wednesday 16 th March 2022	Conceptual understanding of Chromatography	Dr Satish S Sarfare
Thursday 17 th March 2022	Conceptual understanding of electrophoresis	Dr Satish S Sarfare
Friday 18 th March 2022	Conceptual understanding and demonstration of Aseptic Techniques	Pracheta S Salunkhe
Friday 18 th March 2022	Conceptual understanding and demonstration of Disintegration, Dissolution, Friability, Hardness apparatus/unit	Tejas M Karandikar
Saturday 19 th March 2022	Conceptual understanding and demonstration of HPTLC and GC	Pracheta S Salunkhe

H. Expected outcome:

The workshop helped to create awareness amongst students regarding skill development and job opportunities as a Laboratory Technician/ Assistant/Analyst related to Life Sciences Sector Skill Development. The workshop was instrumental in bridging the gap between the domain wise demand and supply for skilled manpower in areas related to Life Sciences Sector Skill Development which was evident from the feedback received based on criteria such as analytical reasoning, hands on experience etc

I. Amount Claim: Rs. 71, 684/-

Report Prepared by

Signature : ----- 

Name : Dr Satish S Sarfare

Department: Bioanalytical Sciences

Designation : Head and Co-ordinator of Bioanalytical Sciences

Signature of Principal

SIES College of Arts, Science and Commerce (Autonomous)
Department of Biochemistry-Food Technology and Nutraceuticals
Report **18/03/22**

Activity : HACCP and FoSTaC workshop
 Resource Person : Mr Sanjay Indani -NBPQ approved Food Safety Auditor and Consultant
 Venue : Mini auditorium- SIES College of Arts, Science and Commerce
 Date : 14th and 15th March 2022
 Beneficiaries : 24 students of Post Graduate Diploma-Food Technology and Nutraceuticals
 Expected Outcome : Participants gain knowledge on food safety management system and acquire practical skills of assessing, monitoring, controlling, and reviewing food safety procedures at workplaces. HACCP and FoSTaC certification from FSSAI after completion of this program.

Report:

Hazard Analysis and Critical Control Points (HACCP) and Food Safety Training and Certification(FoSTaC) workshop was conducted over 2 days 14th March 2022 and 15th March 2022 in collaboration with Safe Foodz Pvt Ltd and Food Safety and Standards Authority of India (FSSAI).

Resource Person, Mr Sanjay Indani conducted the HACCP Awareness, Implementation and Internal Auditor training session, in which following aspects were covered:

- Basic principles of hygiene and manufacturing practices at a food industry,
- regulations followed at different licensed food sectors according to the schedule 4 (i.e. street food vendors, food business operators, milk and milk products, meat products and restaurants.
- licensing of food business (state or central licensing) and the schedule 4 requirements; FSSAI regulation, objectives, formation (i.e. sourced from Codex Alimentarius commission). different types of certifications and accreditations (ISO, HACCP, NABL, etc.)
- Principles of HACCP; Identifying the potential hazards (sources: man, machine, material, environment) and conducting a detailed hazard control measures (prevention of hazard occurrence).
- Determining critical control points and establishing limits for these CCP's
- Food Safety Auditing Process

At the end of two day session, students received certification for HACCP awareness and implementation from SafeFoodz Pvt. Ltd and Food Safety Training and Certification from FSSAI.

SIES COLLEGE OF ARTS, SCIENCE AND COMMERCE (AUTONOMOUS),

SION (WEST) Mumbai: 400022

DEPARTMENT OF BOTANY

Short Term Training Program Report

- **Objective:** It was organised under the broad objective of hands-on skill development and subject application among the participants.
- **No. of Participants:** 7
- **Details:** The participating students of M.Sc.-II Botany successfully completed a Short-Term Training Program in 'Plant Tissue Culture' organized by KET's Scientific Research Centre, from 12th May 2022 to 23rd May 2022. The names of the participating students are listed below:
 1. Mr. Prabhanjan Limaye
 2. Mr. Zuber Choudhary
 3. Miss Jessna Shaji
 4. Miss Shweta Waydande
 5. Miss Anjali Chaurasiya
 6. Miss Archana Prajapati
 7. Miss Priyanka Prajapati
- **Outcome:** The students learnt hands-on techniques of Media preparation and Surface sterilization of the plant materials. Demonstration of Initiation, Multiplication and Rooting subcultures besides Greenhouse techniques in Plant Hardening was also given, making it an overall fruitful learning experience for the participants.

Dr. Mahavir Gosavi

Head, Department of Botany

**SIES COLLEGE OF ARTS, SCIENCE AND COMMERCE (AUTONOMOUS),
SION (WEST) Mumbai: 400022**

DEPARTMENT OF BOTANY

Departmental Newsletter – Gulmohar 2021 – 22 Report

- **Objective:** The main objective was to motivate the students to come up with the online newsletter, “Gulmohar” for the department. It was organised under the broad objective of soft skill development and environmental awareness creation amongst the readers and volunteers.
- **No. of Participants in Editorial team: 11**

Name	Position
Raghavi Vasanth K.	Editor
Vrushali Rane	Web Coordinator
Ankita Singh	Web Managers
Rudra Patra	Web Managers
Roopa Nadar	Web Managers
Priya Ambatur	Web Managers
Trishik Jogi	Web Managers
Vedant Khokrale	Web Managers
Sanket Khambe	Web Managers
Jeba Reshma	Layout Coordinator
Chaitrali Deshpande	Layout Designer
Ankita Chauhan	Layout Designer

- **Methodology/Details:** Department of Botany launched Departmental newsletter – “Gulmohar” at online level. Following issues were published under the same:
 - ✓ Gulmohar Newsletter – September 2021
 - ✓ Gulmohar Newsletter – December 2021
 - ✓ Gulmohar Newsletter – April 2022
- **Outcome:** It introduced them to the great world of plant kingdom. It sensitized the student participants and volunteers towards their responsibility of protecting environment. It also helped them to develop various soft skills such as communication, leadership, responsibility, teamwork, flexibility, decisiveness, planning and time management amongst them. It gave the opportunity to the participants to interact and share their ideas.

Dr. Mahavir Gosavi
Head, Department of Botany

SIES COLLEGE OF ARTS, SCIENCE AND COMMERCE (AUTONOMOUS),**SION (WEST) Mumbai: 400022****DEPARTMENT OF BOTANY****Bridge Course - II Report: Morphology of Flowering Plants**

- **Objective:** The motive behind this course was to bridge the gap of knowledge in the field of plant morphology and giving the students overall idea for floral sectioning, slide preparations, and floral parts identifications.
- **Class:** FYBSc Botany
- **No. of Participants:** 62
- **Methodology/Details:** The Department of Botany organised an online Bridge course, entitled “Morphology of Flowering Plants” for FYBSc students on 28th January and 2nd February 2022 through MS Teams platform.
- **Outcome:** The bridge course helped to make the basic concepts clear and bridge the gap of students’ knowledge in the field of floral morphology, and identifications of plant parts and their variations and types.

SION (WEST), MUMBAI
 DEPARTMENT OF BOTANY

Notice 24th January, 2022

FYBSc SEMESTER-II 2021-22

All students of the above-mentioned class must attend the online Bridge course practical titled “Morphology of flowering plants” as per the following schedule using MS Teams software.

No.	Date	Day	Time	Subject combination	Division
1.	28/01/2022	Friday	8.00am to 10.00am	CBZ	C
2.	02/02/2022	Wednesday	8.00am to 10.00am	CPB & CBM _i	A & C

All students must mark your attendance for the bridge course using the following Google form link:
<https://forms.gle/ncVAnNzBWGS5jCN7>

Attendance is compulsory for everyone.

- **Outcome:** The students were enlightened with the interesting aspects of the plant world. The students, who were from non-Botany background, also found it very interesting to explore the plant world and observe the unique features of certain plants. The lectures included presentations and quizzes, which made the overall teaching - learning experience interactive and enriching for the students.

Dr. Mahavir Gosavi
Head, Department of Botany

**SIES COLLEGE OF ARTS, SCIENCE AND COMMERCE (AUTONOMOUS),
SION WEST, MUMBAI - 400 022**

DEPARTMENT OF BIOTECHNOLOGY

A. Title of the Seminar/Workshop/Conferences:

Global profiling using microarray

B. Background:

A Popular Science lecture organized by Indian Women Scientists' Association (IWSA) supported by BRNS-DAE (Board of Research in Nuclear Sciences, Department of Atomic Energy) jointly with SIES College of Arts, Science & Commerce College (Autonomous), Mumbai.

C. Aims/Objectives:

The main objective of the webinar series was to introduce the participants to:

1. Insights into microarray and fluorescent techniques
2. Copy number alteration analysis
3. Gene expression profiling

D. Location:

The program was conducted using the online platform MS Teams. It was followed by a question-answer session between the resource person and participants.

E. Target audience/participants with expected number:

63 Undergraduate and postgraduate students

F. Details of Sessions:

The session was held on Tuesday, 16th November 2021 between 3:00 - 5:00 pm

G. Session and names of Resource Persons:

Dr Manoj Mahimkar, Senior Scientist, Cancer Research Institute, ACTREC, Tata Memorial Centre, Navi Mumbai

H. Expected outcome:

The feedback of participants stated that they found the session to be interesting and insightful. The program helped them to understand:

1. Microarray & FISH techniques
2. Comparative genomic hybridization
3. DNA methylation array

Dr. Tara Menon

Co-ordinator

Department of Biotechnology

16.11.2021

Annexures 1: Detail of the Resource persons

- Dr. Manoj Mahimkar is an associate Professor at HBNI, Scientific Officer ‘SG’ & Principal Investigator at ACTREC. He did his Masters in zoology at University of Mumbai, PhD in Applied Biology at Cancer Research Institute, TMC, Mumbai , India and post doctoral training at New York Eye & Ear Infirmary, NY, USA. He has received various honors and recognitions like International Head and Neck Cancer Epidemiology(INHANCE), IARC, Lyon, France, 2007, International Collaborative Study on Genetic Susceptibility to Environmental Carcinogens (GSEC), University of Pittsburgh Cancer Center, USA, 2007, Editorial Board: Oral Oncology, 2011 etc. His research interest is to understand the molecular and genetic basis of oral precancerous lesions and head and neck cancers, to develop clinically relevant biomarkers for early detection and improved prognosis.

Schematic Representation of CGH and Array CGH

The diagram illustrates the workflow for Comparative Genomic Hybridization (CGH) and Array CGH. It starts with 500ng DNA from a patient (Test DNA) and a reference (Reference DNA). The DNA is labeled, then hybridized to a Human Cell-1 chip. The process includes blocking of repeats, hybridization, and detection/quantification of fluorescent signals. The final analysis shows a microarray grid and a plot comparing Test Genomic DNA (green) and Reference Genomic DNA (red) using a CGH DNA chip. A citation at the bottom right reads: Mantripagada, K.K et al., Trends in Genetics, 20, 2004.

DEPARTMENT OF BIOTECHNOLOGY

A. Title of the Seminar/Workshop/Conferences:

RUSA sponsored 'Online Workshop for Developing & Refining Skills in Bioinformatics'

B. Background:

Bioinformatics is an integrative field in life sciences that combines biology and information technology. Being a combination of different branches of life sciences, the field employs methodologies and tools to study large volumes of biological data (genomic, RNA, protein, etc) in order to organize, store, systematize, visualize, annotate, query, understand and interpret those data. It has proven quite useful in medicine as the complete sequencing of the human genome has helped to unlock the genetic contribution for many diseases. Its applications include drug discovery, personalized medicine, preventative medicine and gene therapy.

C. Aims/Objectives:

The online workshop on Bioinformatics is intended to:

- inculcate the basic skills required for analysis and interpretation of biological data among the students
- integrate the applications of information technology with Biotechnology through virtual labs and simulation-based software

D. Location:

Online platform (MS teams)

E. Target audience/participants with expected number:

30 participants with a science background at HSC level and having access to a PC/laptop (Windows 7 & above).

F. Details of Sessions:

Detail of Lecturers Delivered/Sessions held:

Sr. No.	Date	Lecture Title	No. of Lecture/ Session
1.	12/02/2022	Literature Database	01
2.	13/02/2022	Nucleic acid Database	01
3.	26/02/2022	Protein Database	01
4.	27/02/2022	BLAST – Part 1	01
5.	05/03/2022	BLAST – Part 2	01
6.	06/03/2022	MSA & Phylogeny using Clustal Omega	01
7.	12/03/2022	MSA & Phylogeny using MEGA X	01
8.	13/03/2022	Primer Designing; Practice & Concluding Session	1.5

G. Session and name of Resource Persons:

Dr. Tejas Prakash Chirmade, Project Scientist, CSIR-National Chemical Laboratory, Pune

H. Expected outcome:

The participant will be introduced to the basic concepts in user-end bioinformatics, efficient use of various databases and sequence analysis programs. Furthermore, they will have hands-on experience with different tools and software to handle sequence data and analyse it to gain meaningful outcomes. This will thus enable students to:

- Learn about literature databases (PubMed, Google scholar) and refine the search skills using keywords to retrieve relevant data
- Understand the nucleic acid and protein databases; Retrieve and store relevant genomic, CDS and protein data using various keywords
- Perform pairwise alignment using different types of BLAST tools and analyse the results
- Perform multiple sequence alignment using CLUSTAL & MEGA X and understand the phylogenetic relationships between the organisms wrt evolution
- Design the primers for PCR
- Hone their skills in interpreting and managing biological data

Dr. Tara Menon

Co-ordinator

Department of Biotechnology

13.03.2022

Annexures 1: Detail of the Resource persons

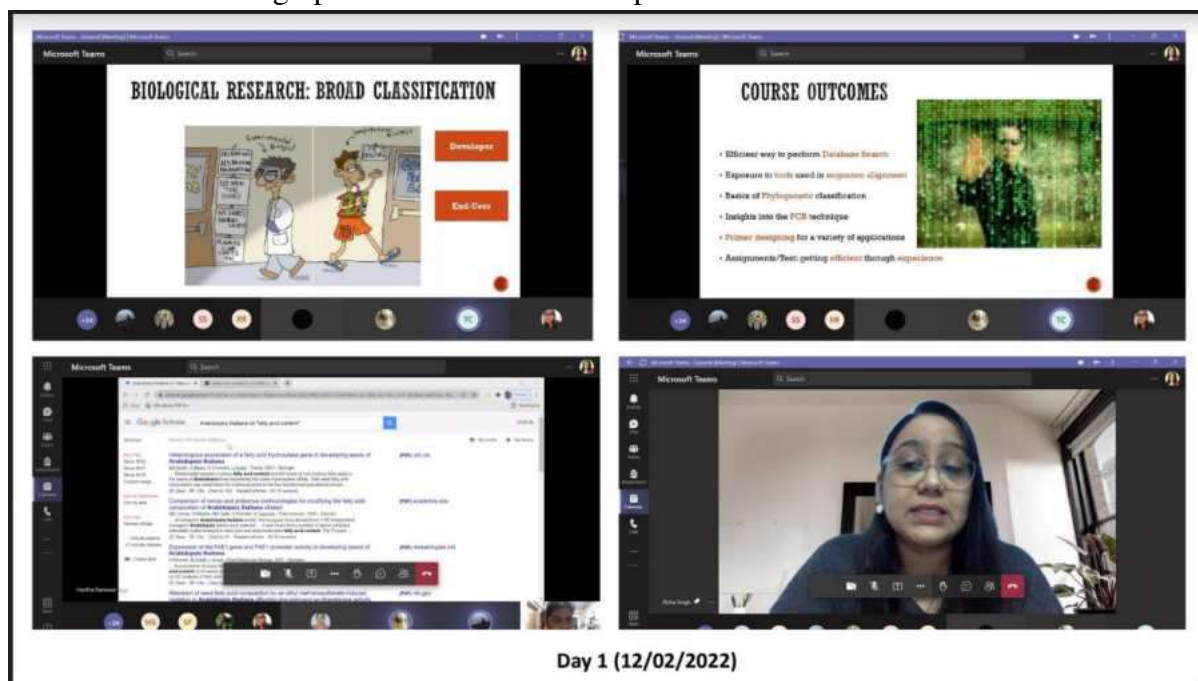

- Dr Tejas Chirmade is currently working as Project Scientist at CSIR- National Chemical Laboratory, on "Development of economical recombinant Human Insulin Lispro ". He is also the Founding Director of a start-up, ZOEACS Life Science LLP, which focuses on research (academic and applied) and education. The company is currently involved in conducting skill development programs for students and faculty members of life sciences. Dr Tejas pursued his doctorate from the CSIR-National Chemical Laboratory, Pune during which he was awarded a research fellowship from UGC. He did his BSc in 2007 in Microbiology from the University of Mumbai. In 2009, he completed two Masters degrees – one in Microbiology from the University of Mumbai and another in Clinical Research & Regulatory Affairs from Sikkim Manipal University. He has also served as Lecturer in the Department of Biotechnology, K.J. Somaiya College from 2009 to 2012. He has several publications in peer-reviewed journals. His area of expertise includes gene cloning, data mining, primer-designing, proteomics and mass-spectrometry.

SION WEST, MUMBAI - 400 022**

DEPARTMENT OF BIOTECHNOLOGY

A. Title of the Seminar/Workshop/Conferences:

BARC technologies for solid waste management through biological route

B. Background:

Proper management of waste is important for building sustainable and liveable cities, but it remains a challenge for many developing countries and cities. Areas with developing economies often experience exhausted waste collection services and inadequately managed and uncontrolled dumpsites. Thus, commemorating 75th Year of India's Independence, "Azadi Ka Amrut Mahotsav", Bhabha Atomic Research Centre (BARC), Mumbai jointly organized a webinar on "BARC technologies for solid waste management through biological route" with SIES College of Arts, Science & Commerce College (Autonomous), Mumbai (Sponsored by Department of Atomic Energy (DAE), Government of India)

C. Aims/Objectives:

The webinar had three eminent speakers enlightening the audience on different waste management topics. The main objective of the webinar series was to introduce the participants to:

1. Biomethanation technologies for processing cow dung to Biomass waste with reference to Nisargruna technology
2. Food Mile/water footprint of food
3. Different composting technologies for biodegradable waste with reference to Rapid composting technology of BARC

D. Location:

The program was conducted using the online platform MS Teams. It was followed by a question-answer session between the resource person and participants.

E. Target audience/participants with expected number:

64 Undergraduate and postgraduate students

F. Details of Sessions:

The session was held on Saturday, 28th August 2021 between 3:00 - 5:00 pm

G. Session and names of Resource Persons:

The webinar had three independent sessions delivered by eminent speakers:

Sr. No.	Title	Speaker & affiliation
1.	Overview of Biomethanation technologies for processing cow dung to Biomass waste with reference to Nisargruna technology	Dr. Sayaji Mehetre, <i>Scientific Officer F, Nuclear Agriculture Biotechnology Division, BARC, Mumbai</i>
2.	Food Mile water footprint of food	Dr. Sachin Mandavgane, <i>Associate Professor, Department of Chemical Engineering, VNIT, Nagpur</i>
3.	Overview of different composting technologies for biodegradable waste with reference to Rapid composting technology of BARC	Dr. Darshana Salaskar, <i>Scientific Officer E, Nuclear Agriculture Biotechnology Division, BARC, Mumbai</i>

H. Expected outcome:

The feedback of participants stated that they found the session to be immensely insightful and informative. The participants were made aware of recent topics like water foot-printing.

The program helped them to understand:

1. Water footprint of various commodities
2. Various biological technologies used for biodegrading wastes and biomass processing
3. Nisarguna Technology and Promoting sustainability and recycling to reduce waste

Dr. Tara Menon
Co-ordinator
Department of Biotechnology

28.08.2021

Annexures 1: Detail of the Resource persons

- Dr. Sayaji Mehetre has been working as a Scientific Officer at the Nuclear Agriculture and Biotechnology Division, BARC, Mumbai since 1999. His education qualification includes a PhD in Microbiology from Mumbai University in the year 2008. He completed his Masters in Agriculture from Mahatma Phule Agriculture University, Rahuri in 1996. He was a visiting Scientist at Northern Illinois University, United States of America (USA) during the year 2011- 2012. Sir, has about 50 research papers published journals of national and international repute and he has authored popular articles in national newspapers. Also, Dr. Mehetre is an editorial board member and reviewer of many scientific Journals. He has 03 patents to his credit and has developed 08 technologies which are widely used by industries and farmers across the country. He has been acknowledged by various awards like Government of India DBT-CREST Award (2011), Department of Atomic Energy (DAE) Group achievement Award (2010 & 2015) as well as Dr. E. J. Wevai Memorial Award (1995) as a university topper.
- Dr Sachin Mandavgane is an Associate Professor and Head of Chemical Engineering Department at the Visvesvaraya National Institute of Technology, Nagpur. He obtained his B. Tech degree in chemical engineering from LIT Nagpur in year 1999 followed by a Ph. D in chemical engineering from the same institute in 2008. His research specialization includes biomass and waste utilization, bio refinery, sustainable engineering and scientific validation of traditional sciences. He has the authored around 125 publications with 2450 citation and h-index 27. He has produced 9 PhDs and has 7 patents to his credit. He has also developed an innovative process of making light weight and thermal insulating construction material using paper mill waste. His technology of making ultra-fine powder neem bio pesticide is purchased by 20+ companies till now. He has designed and commissioned a potato peel biorefinery plant which is the first of its kind globally. His process of on-farm paddy straw digestion to manure has been successfully commercialized in West UP. He also offers consultancy to industries to perform Life Cycle Assessment. Dr. Sachin is an advisor (for Innovation) to corporate houses like Merino Industries Ltd and is a coordinator of Grassroot Innovation Center. He mentors startups like Sus-Tech Solutions working in the area of sustainably issues. He also offers a course ‘*Innovative Design*’ to nurture open and inclusive innovation. He is among the first few in India to develop a credit course on ‘Sustainable Engineering’.
- Dr. Darshana Salaskar joined Bhabha Atomic Research Centre in the year 1996. She completed her Masters in Biochemistry and Ph.D in Microbiology from Mumbai University. She is currently designated as Scientific Officer E in the Nuclear Agriculture and Biotechnology Division. Her area of research includes Environmental Microbiology, Bioremediation of heavy metals and waste management. She has 30 research publications, 2 book chapters and one technology on Rapid bio-composting which is published in the BARC website to her credit. She has received the Department of Atomic Energy, Group Achievement Award in the year 2017, for Excellence in Science, Engineering and Technology.

WEBINAR ON
"BARC technologies for solid waste management through biological route"

Jointly Organised By
Bhabha Atomic Research Centre (BARC), Mumbai
&
SIES College of Arts, Science & Commerce College (Autonomous), Mumbai
(Sponsored by Department of Atomic Energy (DAE), Government of India)

Participants: Scientists, Professors, Students
Date: 28th August 2021, 3 pm to 5 pm
Venue/Mode: Video Conferencing
Web Link: MS Teams

IMPORTANCE OF WASTE MANAGEMENT

VAISHVIK BHARATIYA VAIGYANIK (VAIBHAV) SUMMIT
 वैश्विक भारतीय वैज्ञानिक सम्मेलन

Global Summit of Overseas and Resident Indian Scientists/Academicians

- Waste management has assumed global significance.
- Urgent need of technological interventions has been emphasised during recently concluded VAIBHAV SUMMIT (2020).
- Technologies suitable for local need are essential for management of waste generated at local level.

Overview of different composting technologies for biodegradable waste with reference to rapid composting technology of BARC

Darshana Salaskar, Poulomi Mukherjee and Prasun Mukherjee

Report

- A. Title of the Workshop: Enhancing the Skill of Research: Use of R tools software for Data Analysis**
- B. Background:** The program was conducted through MS Teams, with the objective of introducing R tools for data analysis. Students were taught to download R studio, enter formula, and describe data characters. The entire workshop was followed by hands on training on HDI Data.
- C. Aims/Objectives:**
1. Enhancing the skill by learning Use of R Programming tools for research.
 2. Understand research design and analyze numerical data using Use of R Programming.
- D. Location:** MS Teams (Online)
- E. Target audience/participants with expected number:** Third Year Economics students, 19 students.
- F. Session and name of Resource Persons:** Dr Sandhya Krishnan , Faculty, MDAE, Mumbai and Bhavesh Salunkhe, Research Fellow, Mumbai University.
- G. Outcome:** 1. Students agreed that workshop was beneficial and fulfilled the objectives of introducing R tools and data handling through R.
- H. Funding if any: (Mention the name of the funding agency and amount received)**
RUSA funded, Amount, 10,450.
- I. Annexures:**
- i. List of Participants

Report of the National Webinar by the Department of English 2021-22

A. Title of the webinar: Cultural Trauma, Biopolitics and Precarious Lives in the 21st Century.

Date and Time: 7th August 2021 from 5:00 pm – 6:30 pm

B. Background: 21st century lives, commentators argue, are enmeshed in bio-economies and biopolitics. The trade, traffic and legislation of tissues, organs and biomatter, from blood to cells, is also, however, a component of a larger precarity that troubles us today. This talk focused on a specific form of cultural trauma connected with the biopolitical: posthuman trauma. It moved from the trauma of corporeal precarity to the trauma of judicialized life and finally species trauma.

C. Aims and Objectives:

To critically examine the concept of cultural trauma and its relevance to contemporary societies in the 21st century.

To explore the role of biopolitics in shaping and managing precarious lives in the context of cultural trauma.

To analyze the ways in which cultural trauma and biopolitics intersect and shape social, cultural, and political landscapes in the 21st century.

To investigate the impact of cultural trauma and biopolitics on individuals and communities, with a focus on issues such as identity, memory, and subjectivity.

To identify and explore alternative approaches and strategies that can be used to address the challenges posed by cultural trauma, biopolitics, and precarious lives in the 21st century.

D. Location: (Online) M S Teams

E. Target audience: All degree college students and staff from SIES college and other colleges and Universities.

F. Speaker: Dr. Pramod K. Nayar

G. Outcomes:

Increased awareness and understanding of the complex relationship between cultural trauma, biopolitics, and precarious lives in the 21st century.

Enhanced knowledge of the latest research, theories, and practices in the field of cultural trauma and biopolitics.

A greater appreciation of the impact of cultural trauma and biopolitics on individuals and communities, as well as the social, cultural, and political landscapes in which they are embedded.

Identification of new research questions, ideas, and areas of inquiry that can inform future scholarship and policy.

Improved collaboration and networking among scholars, researchers, and practitioners working in related fields.

Increased public engagement and awareness of the importance of addressing issues related to cultural trauma, biopolitics, and precarious lives.

H. Funding: None

I. Annexures:

Gender Sensitization Cell Report 2021-22

Following events were conducted by Gender Sensitization Cell in the academic year 2021-22

Name of the event: **“Expressions”** Under Utkarsha the literary fest of the College

Event type: Intercollegiate poster and slogan competition

Date: 22nd February 2022

Participants: 29 Students

Brief note about the event: Students expressed their views on the topics: Gender and Violence, Changing Gender Role and Gender equality by submitting Posters and Slogans. The event was judged by Dr. Swasti Dhar, Assistant Professor from MES's Pillai College of Education & Reseach, Chembur.

Name of the event: **“The Protection of Women from Domestic Violence Act, 2005”**

Event type: Guest lecture

Date: 28th January 2022

Participants: Students (62 students participated)

Brief note about the event: The key speaker of the session was Adv. Arun Ramchandra Gaikwad, an esteemed Criminal lawyer. Adv. Gaikwad discussed the definition of Domestic violence as per the act, types of domestic violence and Rights mentioned under articles 14, 15 and 21. Questions like: Who can file the case? Who can be held responsible for domestic violence was very well explained by the speaker.

Title: IPR Awareness webinar

Two hours **online** webinar was organized jointly by Internal Quality Assurance Cell of SIES College of Arts, Science and Commerce (Autonomous)- Sion (W) and SIES Central Training Department, and NIPAM on Tuesday, 10th May, 2022 Time: 11.00 am to 12.30 pm.

To commemorate the 75th anniversary of India's Independence, under the banner of Azadi Ka Amrit Mahotsav, the government of India has taken the initiative of National Intellectual Property Awareness Mission (NIPAM). As a part of this initiative, awareness and training is imparted to million students on Intellectual Property Rights (IPRS) during the period from 15 August 2021 to 15 August 2022. This webinar is also organized under this initiative.

Objectives of the webinar:

To orient students, teachers and researchers about the Intellectual Property Right

Resource Person:

Ms. Parvathy S., Assistant Controller of patents and designs, Department of Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India.

Participants:

115 researchers, faculty members and students from Degree college attended the webinar. The webinar started with the Welcome address by Vice Principal Dr. Satish Sarfare. Concept of the workshop was explained by Ms. Suma Nair, the director of SIES- central training department. Ms Geeta Paluskar, IQAC Coordinator, introduced the speaker.

Methodology:

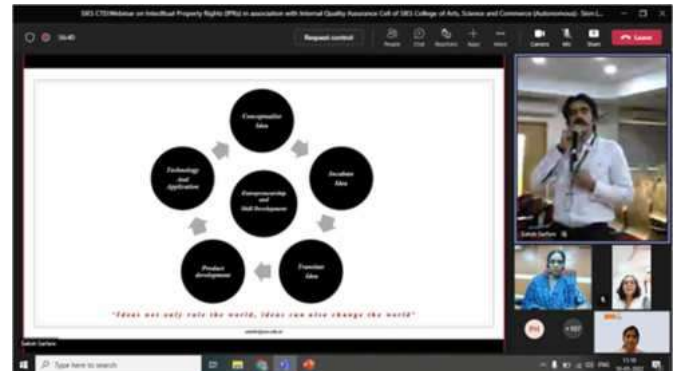

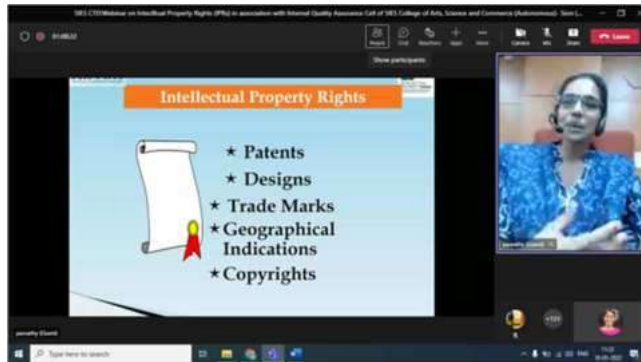

Online webinar was organized on MSTeams Platform. The resource person Parvathy S. lucidly explained the topics related to IPR origin, different aspects, procedures and formalities in copyrights, patents, trademarks, design etc. The inputs and video shared on Geographical Indicators, an overview of IPR was very informative and interesting.

Outcome:

The awareness of the participants about Patents, Design, Trademarks, Copyright and Patent filling procedure was enhanced during the program. The interaction with the speaker, question and answer session, guidance on career in IPR etc was highly appreciated by participants.

Geeta Paluskar IQAC Coordinator	Dr. Uma Shankar Principal

Webinar: Pathways to develop Research Skills in Mathematics

(under RUSA grant)

REPORT

The Webinar titled “**Pathways to develop Research Skills in Mathematics**” was held **ONLINE** on 05/03/2022.

Research in Mathematics is different from research in other science subjects, it is abstract in nature. Many a times, those who are interested in research, do not have proper idea, how to go about it, in which areas there is need for research, how it will be useful for applied sciences and so on.

Young Academicians want to explore areas in Mathematics research, want to review Mathematics literature. want to have an idea about how to write a paper in Mathematics Journal, what is the scope of minor research and similar queries.

Every year there are few brilliant students who have aptitude for research, but they do not have idea how to go ahead. Such students should be motivated. The teachers should have proper information to help them. Above topic is selected to answer the queries and doubts and motivate active research in Mathematics.

Objectives:

- 1) To bring together academicians, faculty involved in research or intend to do research and students with research aptitude.
- 2) To nurture research aptitude by exchanging knowledge and ideas.

Total number of Participants who registered for the webinar was 161 which included UG PG students and academicians. However total number of participants who attended all sessions turned out to be **70(65 participants+5 organisers)**.

Details of Sessions:

Session 1 Keynote: “ **Nurturing Research skills in Mathematics**”

Session 2: “ **Contemporary Research Areas in Mathematics**”

Session 3: “ **Procedural Approach to Quality Research in Mathematics**”

Session 4: Panel Discussion: “ **Research Avenues and Opportunities**”

Names of Resource Persons:

Session 1 : Dr. Sharad Sane

Session 2: Dr. Sidhartha Gadgil

Session 3 : Dr. Jyotshna Prajapat

Session 4 : Dr. Rekha Santhanam, Dr. Anisa Chorwadwala

Moderator for session 4 : Ms. Rekha Watve-Paradkar

Expected outcome was to motivate students for doing mathematical research, and answer the queries of academicians who intend to do research.

Amount Claimed: 15,000 (Claimed under RUSA grant)

Annexure:

- i. Detail of the Resource persons.
- ii. List of Participants.
- iii. Photographs (screen shots) of Webinar.

ABOUT SIES

SIES College of Arts, Science and Commerce(Autonomous), established in June, 1966, to serve the ever-growing educational needs of students from North and Central Mumbai/Suburban, was the pioneer of South Western in Mumbai. It is the first newly-born State of Maharashtra. With NAAC accreditation 'B++' and the Autonomous status conferred upon in June 2018, the college has an impressive strength of over 4000 students drawn from all sections of its constituency. It offers a wide range of UG, PG and PhD programmes. Excellent results at various University and Board examinations, and coveted awards and merit positions suggest by the students have placed the SIES, College among the most outstanding institutions in the city. The students of the college, with their exemplary discipline, serious academic, extra and co-curricular pursuits and excellent rapport with their teachers, have greatly contributed to make this college a name to reckon with in academics and other fields.

Vision: To Foster a Student-Centered Environment, Where The Intellectual, Cultural, Social, Physical And Recreational Needs Of The Students Are Fulfilled.

ABOUT THE WEBINAR

Session 1(Keynote address by Prof. S. Sane)
Nurturing the research skills in Mathematics

Session 2(by Prof. S. Gadgil)
Contemporary areas of research in Mathematics

Session 3(by Prof. J. V. Prajapat)
Procedural approach to quality research in Mathematics

Session 4(Panel discussion by Prof. R. Santhanam & Prof. A. Chorwadwala)
Research avenues and opportunities

ELIGIBILITY & REGISTRATION

- Faculty members of schools and colleges
- Students interested in pursuing research in Mathematics
- Registration is free
- Last date to register: 02nd March, 2022

PRINCIPAL
Dr. Uma Shankar

CONVENOR
Ms. Rekha Watve-Paradkar

RISE WITH EDUCATION
NAAC REACCREDITED - 'A' GRADE

INVITATION

To Respected,
Dr. Leela Subramanian

It gives me immense pleasure to invite you as our guest speaker on behalf of Department of Microbiology, SIES College. We are conducting a workshop on "Development of skills in Biostatistics to analyse Biological data set" as a part of skill development program for our students. We would appreciate it if you address our students so they can benefit from your knowledge. The workshop would be held on 2nd, 3rd and 4th March 2022 at 3 to 6 PM on Microsoft teams. We are looking forward to have you.

Yours sincerely,
M Phadke
Dr. Manju Phadke
HOD Microbiology
SIES College Autonomous

Annexure II

REPORT FORMAT**A. Title of the Seminar/Workshop/Conferences**

Development of skills in Biostatistics to analyse biological data set

B. Background

Biostatistics is the key to data analysis, where large biological data sets are concerned and draw inferences. Today, biological research is growing at a humongous pace and the skill of biostatistics has become the need of the hour, in every walk of biological research, be it clinical trials, vaccine development, bioremediation or even molecular biology.

C. Aims/Objectives

The students who study biological science have studied statistics, as a subject, in higher secondary, thereafter, have lost touch with the subject. They have no understanding of the statistical tools available, the software available and the applications of the same.

Keeping this in mind, a two-day workshop has been designed, where all the basic and advanced statistical tools and their applications will be taught to the students, along with the use of basic software, like R software and analysis of data in Microsoft excel.

This workshop will enhance the analytical skills of the student and will help them draw statistically valid inferences, at the same time, will help in validating their data.

Objectives:

- 1) To teach the basic skill sets of biostatistics
- 2) To teach the use of software used in biostatistics
- 3) To help students analyse data sets and draw inferences
- 4) To teach the students the precise application of the statistical tools available
- 5) To enhance the analytical thinking of the student

D. Location

Conducted online on MS Teams

E. Target audience/participants with expected number

Undergraduate third year students, post-graduate students and PhD candidates.

Total number of participants: 45

F. Details of Sessions:

Workshop was inaugurated at 2:50 pm on 2nd March 2022. Dr. Manju Phadke felicitated and introduced the resource person and gave the overview of the two-day workshop.

- Session 1: (Day 1)
Speaker gave the background of statistics and applications of statistical tests to biological data.
She introduced participants to the R software. Taught the basics of the interface.
Gave theoretical understanding of tests such as Goodness of fit test and Chi-square analysis with Yate's correction then she demonstrated how to perform analysis using calculator and R software.
- Session 2: (Day 1)
Madam started session two with interesting covid examples for different tests.
She covered theory for tests like Sum, mean, mode, Median, Standard deviation and Variance followed by demonstration on Scientific calculator and R Software.
Madam gave few assignments to students for practice
- Session 3: (Day 2)
On second day madam started with some advanced statistical methods such as, Students t-test which was further divided in to analysis such as, Paired, Unpaired t-test and one sample, two sample t-test. For which again she taught codes using R software.
- Session 4: (Day 2)
In last session madam covered tests like, Correlation analysis, regression analysis and Analysis of Variance (One way-ANOVA). She demonstrated calculator method followed by R coding.
Question answer session was conducted for the benefit of students.
In valedictory session, few participants shared their valuable feedback with madam and expressed gratitude for enriching two days.
Lastly, Dr. Pramod Ghogare offered formal vote of thanks to the resource person for her valuable time, knowledge and experience with everyone.

G. Session and names of Resource Persons:

Workshop conducted in four sessions. Two session per day. Conducted by Dr. Leela Subramanian.

H. Expected outcome:

Students will develop skills to statistically analyse and understand biological data sets. This will be helpful for them for their own research works in future.

I. Amount Claim: Rs.6000/-

J. Photographs

Annexure:

- i. Detail of the Resource persons
- ii. List of Participants
- iii. Photographs of Seminar/Workshop

NIRMITEE KENDRA EVENT REPORT

28.01.2022

Title: 'Inicio -Find Your Path (A Virtual Business Bootcamp)'

Day: Friday **Date:** 28 January, 2022 **Time:** 11:00 am to 4:00 pm.

Objectives of the program:

1. To help students with innovative ideas to start their businesses
2. To give an insight on how to better organise one's business idea and make it a profitable venture.
3. To network and socialise with industry experts and business professionals.

Resource Persons:

1. Mr.Gaurang Shetty,Chief Business Officer, for GlobalLinker.com
2. Dr. George Abraham, Former Convenor Nirmitee Kendra, SIES ASCS.

Participants:

114 UG and PG students from various departments in the college participated.

Methodology:

- ✦ The program was conducted using online platform zoom, through power point presentations.
- ✦ The programme was divided into two sessions. During the first session Mr. Gaurang Shetty gave a basic rundown of the problems that young entrepreneurs face when starting out in today's cut throat industry. He outlined the digital problems mainly, like making and handling a website, having a digital presence, attracting clients and investors through digital means, etc. As a solution for the problems outlined by him, he introduced us to his company website GlobalLinker which is an easy and efficient way for a business to link itself digitally to various platforms and networks more effectively. In the second session students were provided with the opportunity to present their start-up business ideas to the panel of judges which consisted of Mr. Shetty and Dr. George Abraham. The judges provided the students with relevant feedback.

Outcome:

As the outcome of the event there were FIVE teams/participants selected on the basis of the quality of their idea, innovation and overall business viability. They were offered seed capital to develop their projects. Following students/ teams were selected:

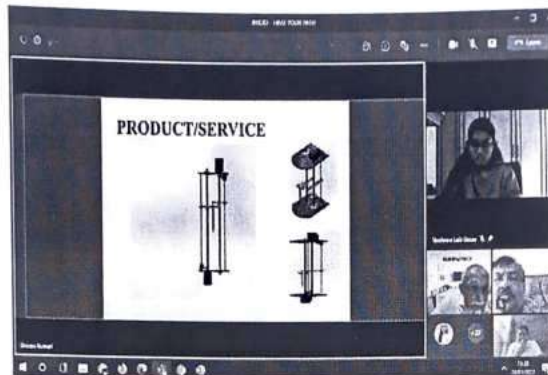

Sr. No.	Student Name/ Team	Project/ Product/ Service Idea	Rank/ Position
1.	Mr. Smit Jain	Speaking Dumpster	I
2.	Mr. Chirag Kothari and Mr. Yash Hajare	Mini Spectrophotometer	II
3.	Ms. Mrudula Iyengar and Ms. Sonali Pandey	Handwash Machine by Fog	III
4.	Mr. Jain Jeet Pravinchand	HireValue	IV
5.	Mr. Balaji ChandraBose Pillai	Mental Health Analysis	V
6.	Mr. Sahaya Ajit and Mr. Ibrahim Shahabuddin Shaikh	Anti Theft Delivery System	-
7.	Mr. Makardhwaj Rajendra Narkar	Uttana	-
8.	Ms. Shivani Kumar	ANTI-GRAVITY FILLER	-
9.	Mr. Suraj Shukla	Dukaan App	-
10.	Mr. Christopher Babu Mathew	InkterPReting Inc.	-
11.	Mr. Ankush Roy Chowdhury	Tomb Exodus	-
12.	Mr. Jariwala Arshad Nasir	VR Cafe	-

Amount claimed

A total amount of Rs. 12 lacs has been sanctioned under RUSA Grant [Component 8]. From this grant, the seed money of Rs. 1,61,000/- (One lac sixty-one thousand only) was allotted to four students/ teams among the above-mentioned projects:

Sr No.	Name of Student/ teams	Project name	Amount sanctioned (in Rs.)
1.	Mr. Smit Jain	The Speaking Dumpster	60,000/-
2.	Mr. Chirag Kothari and Mr. Yash Hajare	Mini Spectrophotometer	45,000/-
3.	Ms. Mrudula Iyengar and Ms. Sonali Pandey	Fog Hand Wash Machine	25,000/-
4.	Mr. Jeet Jain	Hire Value	31,000/-

Pitch to be Rich - 24/02/2022

**SIES COLLEGE OF ARTS, SCIENCE & COMMERCE (AUTONOMOUS)
SION (WEST), MUMBAI- 400022**

NIRMITEE KENDRA EVENT REPORT

Title: Pitch to be Rich

Day: Thursday **Date:** 24th February 2022 **Time:** 11.00 am to 1.00 pm

Objectives of the Program: Pitch to be Rich is an interactive and informative session for budding entrepreneurs.

- To help students to understand different business models, market needs and start-up insights.
- To train students to make impressive business pitches and present them to investors.

Resource persons: Mr. Denver Annunciation, Director - Strategic Initiatives, Janus International Pvt. Ltd

Participants: 15 UG students

Methodology: The students were given startup scenarios and ideas and were asked to create a business pitch. Pitch deck is to be created by participants which were then sent to the judge for their analysis and feedback.

Outcome: There were 07 teams who presented their pitch. Out of them 02 were declared winners.

List of pitch decks:

1. Fog Handwash Machine: Sonali Pandey, Mrudula Iyengar
2. Hire value: Jeet Jain
3. Bandhu: Smit & Jeet
4. We care: Sayed Naeem
5. Uber: Nadar Kibson Samuel
6. Mini Spectrophotometer: Chirag Kothari, Yash Hajare
7. VR Gaming: Arshad

NIRMITEE KENDRA EVENT REPORT

26.09.2021

Title: 'Guest Lecture - Establishing a Start-Up 101'

Day: Sunday **Date:** 26 September, 2021 **Time:** 4:00 pm - 6:00 pm.

Objectives of the program:

1. To help students understand the fundamentals of beginning a start-up.
2. To provide opportunity for students to interact with budding student entrepreneurs.

Resource Persons:

1. Mr. Bhavesh Kothari, co-founder and director at Billionium Divas.

Participants:

72 UG and PG students from various departments in the college participated.

Methodology:

- ◆ The program was conducted using online platform zoom, through power point presentations.
- ◆ Mr. Bhavesh Kothari an entrepreneur and a startup mentor guided he students on developing a startup business idea. Mr. Kothari gave insights on the process of incubating an idea and tools required to make it viable and profitable. Further, two start-up initiatives were put forth by Mr. Yash Hajare and Mr. Vignesh Reddy. Mr Hajare presented his UV-C sanitization box by STEM Learning that disinfects not just mobile phones, wallets, keys, cash, masks, watches, shoes, but vegetables, medical equipment and laptops too. The box is currently available on [amazon.in](https://www.amazon.in). Mr. Reddy presented 'FLOODWATCH', a community centric, real-time warning system for floods.

Outcome:

Two students Yash Hajare and Vignesh Reddy presented their projects which was well received by the students.

Annexures to the report:

Annexure 1: Screenshots of the programme and poster announcing the winners of the competition.

Workshop Report

23.04.2022

A] Title: Designing and testing of Power supply and application of Logic gates.

B] Background:

Due to two years of pandemic, students could not have opportunity to work in laboratory. Therefore to provide some experience and joy of working in physics laboratory, two day workshop was organized.

C] Aims/ Objectives of the program:

1. To provide basic knowledge of electronic components.
2. To Design and construct a power supply.
3. To study different applications of Logic gates.

D] Location: Offline lectures and Demo-Sessions in SIES College Physics Laboratory.

E] Target Audience /Participants with expected number:
SYBSc students: Expected students: 29 (registered through Google form)

F. Session and name of Resource Persons:

Details of Session:

Students from SYBSc attended the workshop.

The program was conducted in Physics lab consisting of 2 hour lectures from 10.00 am to 12.00 pm followed by practical from 12.30pm to 2.30pm.

Sr. No	Date	Lecture Title	No. of Lecture/Session
1.	20-04-2022	Designing of power supply	An offline lecture of 2 hours followed by 2 hours of lab-work

2.	21-04-2022	Logic gates.	An offline lecture of 1 hour followed by 2 hours of lab-work
----	------------	--------------	--

Name of the Resource Person:

1. Vinod Menon
2. Kiran Nabar
3. Aarti Muley
4. Anand Amberdekar
5. Vishal Dev Ashok
6. Maheshwar B. Falake
7. Seema Jadhav
8. Naziya Shaikh Sultana
9. Mohammed Jeelani
10. Vasuthevan Thyagarajan
11. Vishal Desai
12. Bhavya Shetty

G. Outcome:

18 students attended lectures and participated in practical (lab-work).

The feedback of participants reflects the following points:

- The program helped them to understand Power supply and Applications of logic gates.
- They enjoyed working in laboratory after a long gap.
- More such activities are awaited.
- Not preferring online sessions.

H. Funding if any: No funding from Ext Agency

I. Annexures:

Workshop Report

23.04.2022

A] Title: Demonstration of MSc projects and Physics research lab visit.

B] Background:

UG students of science stream attended the demonstration of PG students of their actual work done as a part of their final year project, Also they visited research lab to see what kind of work is going on in our lab that might create interest in students towards research field.

C] Aims/ Objectives of the program:

1. To provide to brief idea about MSc course done in our college.
2. To create interest among the students towards research in physics.

D] Location: Offline lectures and Demo-Sessions in SIES College Physics Laboratory.

E] Target Audience /Participants with expected number:

SYBSc and TYBSc students: Expected students: 56 (registered through Google form)

F. Session and name of Resource Persons:

Details of Session:

Students from SYBSc and TYBSc attended the demonstration of various project done by our MSc final year students and visited the research lab

The program was conducted in MSc Physics lab consisting of 3 hour demonstration from 10.00 am to 1.00 pm followed by research lab visit from 1.30pm to 2.30pm.

Sr. No	Date	Lecture Title	No. of Lecture/Session
1.	23-04-22	Demonstration of MSc projects and Research lab visit	4 demonstration was delivered by PG students, 1 demo was given by faculty and research Lab visit by UG students in presence of Dr. Aarti Muley

Name of the Resource Person:

1. MSc students
2. Dr.Arati Muley
3. Dr. Vishal dev ashok
4. Naziya shaikh
5. Vasuthevan thyagarajan
6. Mohammed Jeelani

G. Outcome:

30 students attended lectures the whole session

The feedback of participants reflects the following points:

- The session helped them to understand about the MSc program running in our institute.
- They also have basic idea about how research is done in physics.
- They were too happy and motivated to see how well PG students did their project and demonstrated it,the motivation for UG students was to see how confidently MSc students were able to explain their work and big shift in their personality at the end of their final year.
- More such activities are awaited.
- Not preferring online sessions.

Funding if any: No funding from Ext Agency

PHYSICS DEPARTMENT ACTIVITIES 2021-22

Department of Physics- One day National Webinar on 17th July 2021.

Objectives:

A. Title of the Webinar p: “PPP Webinar on the Frontiers of Physics”

Background: To provide information in order to understand the recent advances in these rapidly growing fields and to develop the ideas to design new experiments.

B. Background: Interaction of UG and PG Students of Science stream with eminent scientists working in different institutes was needed to provide information of the recent advances in the rapidly growing fields in science

C. Aims/Objectives: This webinar “PPP Webinar on the Frontiers of Physics” was aimed at

- i) Covering the basic mechanism underlying superconductivity.
- ii) Cover various aspects of low temperature physics
- iii) Discussion on the current topic of sustainable modes of energy production.
- iv) Showcase the achievements in the field of Scanning Tunneling Microscopy.

To provide information in order to understand the recent advances in these rapidly growing fields and to develop the ideas to design new experiments.

D. Location: Webinar was conducted online on MS Teams and also YouTube

E. Target audience/participants with expected number:

UG and PG Students of Science stream from various universities of India.

Around 200 persons participated through online mode, 85 of the participants gave feedback.

The program was conducted using online platform MS Teams and streaming in You tube through power point presentations and video lecture. Study material was uploaded in the MS teams.

F. Session and name of Resource Persons:

The Webinar schedule was as follows:

DAY & DATE :	SATURDAY 17TH JULY 2021
-------------------------	---

Time	Topic
9.00 am-9.30 am (Morning session)	Inaugural Proceedings
9.30 am-11.00 am	Scanning Tunneling Microscopy by Dr. Sujit Manna (Assistant Professor, IIT Delhi), Department of Physics
11:00 am-12.30 pm	Low Temperature Physics by Dr. Pratap Roy Chaudhuri (Associate Professor(G), TIFR and Shanti Swarup Bhatnagar Awardee)
1 :15 pm-2:45 pm	Perspectives on Superconductors by Dr. Tanmoy Das (Assistant Professor, IISc Bangalore), Department of Physics
3.00 pm-4.30 pm	Sustainable Energy Harvesting by Dr. Anuja Datta (Assistant Professor (DST Ramanujan fellow), IACS Kolkata) School of Interdisciplinary Sciences
4.30 pm-5.00 pm	Valedictory function

Methodology: Online platform MS Teams and streaming in You tube through power point presentations and video lecture.

G. Outcome:

Above 200 participants from various colleges and universities across India got exposure to the research work done by leading faculties from TIFR Mumbai, IISc Bangalore, IIT Delhi and IACS Kolkata.

UG and PG students and research scholars from all over India got an opportunity to interact with research scholars and researchers working in their respective field. Several questions were asked by the students and their feedback was collected which was well received and appreciated.

H. Funding: No external funding

I. Annexures:

Workshop Report

08.03.2022

**A] Title: “Programming and Interfacing using Raspberry Pi”
Skill Development Program organized by Department of Physics under
RUSA**

B] Background:

UG and PG Students of Science stream learning computer programming languages need application-based programming skills. Micro controllers are widely used in several commercial products. Knowledge of programming and interfacing using Micro controllers can improve employability of students and also trigger entrepreneurship.

C] Aims/ Objectives of the program:

1. The course is designed to provide Basic knowledge of Python and Linux.
2. Learning programming and Interfacing using Raspberry-pi.
3. Applications of Raspberry-pi in industrial and other fields.

D] Location: Online Lectures on MS Teams Platform, Offline Demo-Sessions in SIES College Physics Laboratory.

E] Target Audience /Participants with expected number:

Students with a prior knowledge of programming: Students in TYBSc. Phy/Stats/ Maths/ CS/ IT and MSc. Phy/CS/ IT. Expected number: 100

F] Details of Session:

Students from TYBSc (Physics), MSc (Physics) and FYBSc (Computer Science) Attended the workshop.

The program was conducted using online platform MS Teams, through power point presentations, White board, Demo-Videos, and live demos. Study material was uploaded in the MS teams.

It was followed by question- answers session between the resource person and participants. All online sessions were conducted from 4 to 6 pm.

One day Off-line Demo session was conducted in the Physics Laboratory. In this five-hour session, interfacing with various types of peripherals was demonstrated.

Sr. No	Date	Lecture Title	No. of Lecture/Session
1.	14-02-2022 to 05-03-2022	Programming and interfacing using Raspberry-Pi	13 Online lectures of 2 hours each
2.	06-03-2022	Laboratory Demonstration of interfacing with Raspberry-Pi	1 offline Session of 5 hours

The workshop schedule was as follows:

SESSION DAY	DATE
DAY-1	14-02-2022
DAY-2	15-02-2022
DAY-3	16-02-2022
DAY-4	17-02-2022
DAY-5	18-02-2022
<i>Holiday</i>	<i>19-02-2022</i>
<i>Sunday</i>	<i>20-02-2022</i>
DAY-6	21-02-2022
DAY-7	22-02-2022
DAY-8	23-02-2022
<i>Utkarsha & Visions(Non-instructional days)</i>	<i>24-02-2022</i>
	<i>25-02-2022</i>
	<i>26-02-2022</i>
<i>Sunday</i>	<i>27-02-2022</i>
DAY-9	28-02-2022
<i>Holiday</i>	<i>01-03-2022</i>
DAY-10	02-03-2022
DAY-11	03-03-2022
DAY-12	04-03-2022
DAY-13	05-03-2022
Practical Session	06-03-2022

Name of the Resource Person:

Mr. Balkrishna M. Wagle,

Director, Microbyte Solutions.

Mr. Wagle is a highly experienced person in the field of Computer Machine Language.

G] Outcome:

60 student participants attended online lectures and 40 student participants attended offline demonstrations.

The feedback of participants reflects the following points:

The program helped them to understand

1. Linux Operating System.
2. Hardware - Software Interfacing
3. Nearly 2/3rd of participants expressed that they understood Python programming.

Techniques taught in the workshop are useful to design commercial applications like temp. control.

H] Funding : RUSA Amount received Rs. 30,000/-

Interdisciplinary Choice Based Credit Course**

'Insights into field biology'

**Organised by the Department of Zoology
2021-2022**

AJ Ram
30/04/2022
Course Co-ordinator

Mr. Avadheshkumar Ram

Head, Department of Zoology

Dr. Satish Sarfare

**SIES College of Arts, Science and Commerce and Science (Autonomous),
Sion (West), Mumbai**

**Credit Course for First Year Undergraduate Students (Academic Year
2021-22, Semester II)**

A. Title of the Course:- Insights into Field Biology

B. Background:- Study of Wildlife and environment is driven by the curiosity and sense of attachment with the nature. Since due to anthropogenic activity there is rapid decline in Species diversity and habitat, Rationale behind organizing “Insight of field Biology Course” as a credit Course for Humanities and Applied Science Students is to inculcate the importance of field visits so that students can see the damage and develop strategies to mitigate the issue.

C. Aims/Objectives:- Field visits with Zoology teachers will help Students in understanding the local biodiversity and importance of Conserving organism and its environment. Additionally Guest lecture were also Organised which were mainly focused on the Photo-documentation as an important tool for conservation of wildlife and Case study of “Conservation strategies in successful leopard conservation project of Mumbai”.

D. Location (online/offline):

1. Railway Station, 91A, Lalbaug Flyover, near Byculla, Byculla East, Byculla, Mumbai, Maharashtra 400027.
2. Girgaum Chowpatty, Charni Road, Mumbai, Maharashtra 400007
3. 159-161, Mahatma Gandhi Road, Kala Ghoda, Fort, Mumbai, Maharashtra 400023.
4. SIES College of Arts, Science and Commerce (Autonomous), Sion (W), Mumbai.

E. Target audience/participants with expected number:

Undergraduate Humanities and Applied Science students belonging to subjects such as English, Hindi, History, Political Science, Psychology, Biotechnology, Computer Science, Information Technology.

Number:-100 participants

H. Expected outcome:

The Course helped to create awareness about importance of Field Biology as one of the important aspect in Studying organism and environment. This Course also encouraged students to further work on to create awareness about conservation of nature and natural resources. Moreover, from the feedback received based on criteria such as Interdisciplinary research approach, further exploring field biology etc it was evident that the Course indeed attempted in creating some Strong zael amongst students to participate in future such events organised by the department which may become relevant in addressing the emerging problems in the country besides contributing to society and mankind.

I. Amount Claim (if any): 3000/-

J. Photographs

Visit to Veermata Jijabai Udyan on 31/03/2022

Visit to Girgaum Chowpatty on 05/04/2022

Visit to Chatrapati Shivaji Maharaj Vastu Sangrahalaya on 7/04/2022

Guest lecture by Mr. Vishal Shah on “Photo-documentation as tool for Conservation of wildlife and Natural resources” 09/04/2022.

Guest lecture by Mr. Nikit Surve on “**Conservation strategies in successful leopard conservation project of Mumbai**” 09/04/2022.
