Aim/Concept

"True happiness involves the full use of one's power and talents."

- AKANKSHA is a Flagship Project of the Rotaract Club of SIES College, Sion (W) supported by the Rotary Club of Bombay Pier, Innerwheel Club of Bombay Pier, in association with Interact Club of SIES High School and Interact Club of NES High School.
- Akanksha as an initiative was started 5 years ago, with a noble intention of providing a platform to the underprivileged students, from BMC and other underprivileged schools, to showcase their talent in Performing Arts, Literary Arts and Fine Arts. Since then till now, with an aim to flourish this project to more and more schools, and providing a platform to more students, this event was carried out and has provided a platform to thousands of students.
- Cultural excellence being an integral part of the career of a student, this project provided a platform where they could explore their talents and later pursue improvements on it, which otherwise the BMC schools and underprivileged schools could not provide. But during this academic year students across the country were missing out on this opportunity.
- The global pandemic had posed a never seen before challenge, but beyond the challenge, the team saw the opportunity at hand and thus went a step ahead making Akanksha a PAN India Inter-School festival, with presence in 30 cities across the country.

- While approaching schools and interacting with parents we realised that certain students weren't able to participate due to financial constraints, etc. But knowing how much students love participating in Akanksha we added two more days to the project in the form of free workshops, this way a good number of students who couldn't compete this year could still enjoy and learn something new.
- The project gave an equal platform to students from diverse backgrounds. There were students from municipal schools, convent schools as well international schools competing with each other solely on the basis of their talent.

Follow-up (Feedback)

- Akanksha gave an opportunity to many students who are always eager to show off their talents. It brought out the hidden talents and skills that students themselves did not know they possessed due to lack of opportunity. It created a sense of familiarity and pride amongst themselves.
- Due to the pandemic and the online schooling system, students were missing out on extracurricular activities and the opportunity to participate or perform. Through Akanksha we as a Club could provide them a platform for their talents.
- The students, parents and school teachers were impressed by the smooth functioning of the project.
- The interactors too had an opportunity to understand the flow of events, participate and learn more about Rotaract.
- Being a Partners- In- Service one of the foremost aims of AKANKSHA is to bring the three branches Rotary, Rotaract and Interact together to make a huge event like this possible.
- The support of the Rotary Club of Bombay Pier was an integral part of this initiative, and Rotarians attending and judging the events, improved the Rotary-Rotaract Relation. With members interacting with Rotarians they came to know more about the rotary and their involvement and support in the betterment of Rotaract.
- This year the OC Team too learned and adapted to a newer format of conducting mega projects, every individual involved got to learn something new in the process.

- This year with schools across the nation participating in Akanksha, the project could successfully provide a platform to more students, thus
 creating a larger impact.
- The enthusiasm and efforts put in by the participants and their parents was outstanding. As a large number of participants who participated come from underprivileged schools, attending an online event was a challenge for them too, but with the help of the OC Team and teachers this barrier was overcome to a great extend, sadly due to network issues, electricity problems and other constraints certain students missed out on the finale days.
- Lastly, AKANKSHA Received 1330 entries from participants representing over 60 Schools PAN India.
