It is my pleasure to write a letter of recommendation for Sushma M Sharma, a Web Developer and Graphic Designer at Hobby Tech Pvt. Ltd. I have supervised Sushma in her tasks for the past 2.5 months and she ranks among the talented individuals I have encountered.

Sushma has shown a high level of innovation, independence and self-motivation throughout the time of the internship. Her ability to think outside the box and ability to create solutions with ease is commendable. Additionally, Sushma is very well vested in implementing custom designed websites which are responsive and have a scalable structure. She designs logos and edits images to an above satisfactory level. ## Letter of Recommendation

To,

Whomsoever it May Concern.

It is my pleasure to write a letter of recommendation for Avnish Tribhuvan Yadav, an API Development & Cyber Attack Monitoring & Prevention intern at Hobby Tech Pvt. Ltd. I have supervised Avnish in his tasks for the past 3.5 months and he ranks among the talented individuals I have encountered.

Avnish has shown a high level of innovation, independence and self-motivation throughout the time of the internship. His ability to think outside the box and ability to create solutions with ease is commendable. Additionally, Avnish is very well vested in implementing custom designed responsive websites with a scalable structure. He has developed and implemented REST API's using Node.js to an above satisfactory level. Being a detail-oriented individual with an ability to perform his duties thoroughly. I believe his curiosity, intelligence and desire to challenge the standards and learn make him a qualified candidate for the position of an API Developer or Cyber Security expert. He has a strive and desire to learn new things and update his knowledge based on the industry requirements, which is an applaudable skill that he has and rare to find this skill in interns.

In short, I give Avnish my highest recommendation. He is able to face difficult situations with great ease and consistently seeks to improve current methods. He has the knowledge and the drive to achieve great success in his career.
