Subject: Recommendation of two students for NIUS Programme.

Sir/Madam,

As you may be aware, “*National Initiative on Undergraduate Science (NIUS)*” is a program of the Homi Bhabha Centre for Science Education (HBCSE) in collaboration with TIFR and BARC, the premier scientific institutions of the country. The aim of NIUS is to nurture talented students in basic sciences (physics, chemistry and biology) and motivate them to research careers in these fields. Students invited to join the programme are the selected B.Sc 1st year students studying in various areas of biological sciences.

An NIUS camp in biology will be held during 12th - 20th November 2018. In this camp students will be oriented to experimental and theoretical concepts in biology. Students who show aptitude for research may be offered a short term project in the second year of the programme which will have to be carried out at HBCSE.

I request you to recommend two meritorious students of any-stream of Biology from your college. These students should be sincere and should have good academic record. We are attaching two NIUS application forms along with this letter. Kindly ask the students to fill the same and send it to HBCSE with attested photocopies of their Std. X and Std. XII mark sheets along with recommendation letters from two teachers before **31st August 2018**. You may also email the names of students whom you recommend to the following id:

niusbio@hbcese.tifr.res.in

The list of selected students will be uploaded on our website by the evening of 11th September 2018. Kindly do the needful at your earliest.

Thanking you.

Yours sincerely,

Prof. Rekha Vartak,
In-charge,
Biology Olympiad Cell.

Applications to be posted to:
