Department Report of Bridge Course 2022-23

Title: Bridge Course in Mathematics

- **Objective:** To bridge the gap between the knowledge gained previously and what the students will be learning in TYBSc and to equip the students with the tools required to tackle the leveled up abstraction of TYBSc Mathematics.

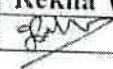

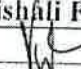

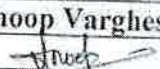

Class: TYBSc-Mathematics(Div A)

No. of Participants: 30

Methodology/Details:

- **Assessment of Learners:** Before starting the course, an initial assessment to understand the students' existing knowledge, skills, and learning preferences was conducted. This helps tailor the course content and pace to meet their specific needs.
- **Clear Learning Objectives:** Clear and achievable learning objectives for the course were defined.
- **Engaging Course Content:** Course content that is engaging, interactive, and easy to comprehend using a variety of teaching materials such as presentations, videos, graph plotting softwares and other mathematical softwares and hands-on exercises to keep the students interested and actively involved in the learning process were delivered.
- **Problem solving Practice:** Problems were assigned and discussed with them to reinforce what they learn through practice.
- **Individualized Support:** Personalized support to students who might be struggling with specific concepts was given in the form of one-on-one tutoring in the lab and online through MSTeams.
- **Outcome:** A class test at the end of the bridge course was conducted to gauge the progress and understanding of the students.

**DEPARTMENT OF BIOCHEMISTRY**

**Academic Year 2022 - 23**

**Department Report of Bridge Course**

**Title : Foundations of Biochemistry**

**Objective:**

Biochemistry is introduced as an independent new subject at TYBSc (Semester 5 and 6) in the form of 3 Units along with 3 Units of either Zoology, Botany, Chemistry or Microbiology. Since Biochemistry is an interdisciplinary subject, the Biochemistry 3 Units students are from diverse background and subject combinations at SYBSc i.e. a combination of any two of the following subjects- Chemistry, Botany, Zoology, Microbiology, Physics. In this scenario it becomes important to condition the students before they are subjected to learning a new subject. The main objective of the course is to bridge the gap between the basic chemistry and biology studied till SYBSc level and the concepts they would be studying in Biochemistry at TYBSc. The Bridge course aims to bring the students at one level of conceptual or basic biochemistry knowledge so that they are ready not only to comprehend the detailed concepts but also appreciate the application of the subject.

**Class: TYBSc**

**No. of Participants: 32**

**Methodology/Details:**

Syllabus had two classroom teaching modules and one Practical module. Total duration of 15 lectures. (Extra lectures were taken in online mode too) Teaching method included lectures, power point presentations and videos. Assignments were in the form of quiz, crossword, and model making for stereochemistry concepts. Students were continuously evaluated for these assignments

**Outcome:**

- The students were prepared to study and comprehend advance concepts in Biochemistry.
- It brought all the students at one level to grasp the concepts of Biochemistry
